

PRESS RELEASE  
FOR IMMEDIATE RELEASE:

**Clarinda Community School District is Planning for the Future**

*Clarinda, Iowa - November 25, 2018*

The strategic plan identifies a commitment to student success that supports academics and activities. During a working session on Tuesday, November 20 in the boardroom, the school board met with facility planners from Estes Construction and a financial advisor from Piper Jaffray to review and discuss facility needs.

After review of the facility assessment prepared by Estes, the school board is proceeding with the next step in planning by selecting an architect/designer to collaborate with students, staff, parents, and community members to identify district priorities. Through a transparent and open process, the school board looks forward to collaborating with our stakeholders as we work to support our students, staff, parents, and community. The public is welcome to review the facility assessment and all public documents at anytime by visiting the district website and clicking on the *Future Ready* link, central office, and the Lied Public Library.
